Our school initiatives are showing substantial progress toward our targets

After reviewing our 2018 *Investing for Success* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our initiatives as needed to ensure every student succeeds.

Initiatives implemented include:

- Embed a case management approach through Head of Curriculum Student Services to increase attendance and improve behaviour of students as pre-requisite for engagement in learning.
- Extending our high quality teaching and learning culture reflective of high expectations in achievement, attendance and behaviour of students and adults.
- Refining effective and efficient school practices and programs which monitor improvement and ensure school-wide consistency in the teaching of reading and in particular reading comprehension
- Develop a case management approach through the Data, Literacy and Language Coach to increase teacher capability and understanding of data, improving differentiated learning for students and engaging students in learning.
